tinyurl.com/muzahidWebsite 

Junior at Wayne State University studying Computer Science. Passionate and confident programmer with powerful problem solving and cross-functional skills. Looking for a position where I can learn new skills, build strong and lasting relationships, and grow as a software developer.

Education

Wayne State University

Sept 2020 - May 2024

B.S. Computer Science – GPA: 3.90

- Recipient of Gold Scholarship
- Dean's List

Relevant Courses

- Algorithm Analysis and Data Structures, C++, Java, Python Programming, Calculus and Discrete Math

Projects

Hospital Billing System

Mar 2022

Java program which collects data on hospital patients such as the doctor information, total bill, and patients' personal details. The data is stored in their respective repository and inserted onto an organized text file for reading and writing, making it optimal for fast and easy data documentation.

Banking System

Nov 2021

C++ program which utilizes APIs and libraries to create a mock banking system that allows users to deposit, withdraw, and transfer currency between multiple checking and saving accounts.

Email Archive

Dec 2020

Python program that collects email addresses and personal information using dictionaries and other data structures and stores them in a file. Information can be accessed and manipulated through the program, making it ideal for the user experience.

Skills

- C++, Python, Java, HTML, CSS, JavaScript, SQL, PHP
- Microsoft Office Applications
- 10+ years of experience with Windows OS
- GitHub, Git, Node.js
- Full Stack Web Development
- Team player
- Effective Communicator
- Eager to learn
